EXECUTIVE SUMMARY

Computer Science student skilled in full-stack development, AI-powered automation, and cloud integrations. Experienced with React, Java, SQL, Supabase, and Firebase, with proven leadership and hands-on development of campus-scale platforms.

EDUCATION

AMRITA VISHWA VIDYAPEETHAM

Batchelor Of Technology, Computer Science and Engineering

Cumulative GPA : 9.19

Nagercoil, Tamil Nadu

2024-2028

EXPERIENCE

HACKERRANK SOFTWARE ENGINEER INTERN

Jun 2025 – Jul 2025

- Gained practical skills in software engineering, data structures, and algorithms.
- Strengthened problem-solving abilities through coding challenges and applied exercises.

PROJECTS

Criminal Data Management System [GitHub](#)

Java, Swing, Serialization

Developed a Java-based application for secure crime record storage and analysis. Implemented data encryption, role-based access control, and automated reporting.

Event Listing Website [GitHub](#) | [LiveDemo](#)

Html5, CSS3, JavaScript, Netlify, Zapier

Developed the event website for Amrita Vishwa Vidyapeetham with categorized event listings and a responsive UI, integrating automation workflows using n8n and Zapier to automate registrations and email workflows, cutting manual effort by 60%.

MediMind AI [GitHub](#) | [LiveDemo](#)

Firebase, Gemini API, TypeScript

Engineered MEDIMIND-AI, a full-stack application utilizing cutting-edge AI models and a modern tech stack to deliver comprehensive medical information services.

Amrita Careers - Opportunities Portal [LiveDemo](#)

React, TypeScript, Supabase, SQL

Implemented a full-stack website designed to centralize career opportunities, hackathons, internships, webinars, and campus announcements. Enabled authenticated users to post and manage events, improving the visibility of off-campus and on-campus opportunities for students.

SKILLS

Technical Skills : System Design, Responsive Web Design, Automation, API, Data Visualization.

Programming Languages : Python, Java, C, HTML5, CSS, JavaScript, SQL.

Tools & Technologies : Git & GitHub, MySQL, Linux, n8n, Zapier, VS code, IntelliJ.

Cloud & Deployment: Firebase, Supabase, Netlify, Vercel.

ACHIEVEMENTS

- Participated in the UI/UX Design Competition at Tantrostav 2025 and **received special appreciation** from the jury for innovative design concepts.
- **Led and coordinated** a 30-member accommodation team during the Chancellor's visit, ensuring smooth operations and effective communication.
- **Developed** an AI-integrated full-stack Event Management Platform that improved event planning efficiency and automated workflows, reducing manual record-keeping by 80%.
- **Selected** as a potential contender for the prestigious India-Japan Conference 2025 hosted by Cognizance Arena at IISc Bangalore.
- **Serving as Secretary** of the amFOSS Club, contributing to technical events and student engagement.
